THE SWISSTRAX BRAND

Swisstrax, Inc. offers a practical and modern alternative to standard concrete and epoxy garage flooring. Randy Nelson, President, directed the development of this revolutionary garage flooring product line in Switzerland over 20 years ago. Randy brought the product back to the USA five years ago and has centrally based his garage flooring manufacturing and distribution center in California since.

Since manufacturing began in the United States, Swisstrax has been chosen by AVIS for display garage flooring, and Mini USA dealerships nationwide as their showroom flooring of choice and is the official garage flooring supplier to the Barrett Jackson Car Auctions and sponsor of SEMA (Specialty Equipment Market Association) at their annual show in Las Vegas. Swisstrax also supplies their modular, interlocking flooring to The SPEED Channel, Carroll Shelby Official Licensed Merchandise, Bobby Unser Racing, US Armed Forces, Ferrari, Grand Am, American Le Mans, and the Ford Motor Company. These are just some of the clients to take advantage of the distinctive look of the Swisstrax modular garage flooring line.

Swisstrax carries on the tradition of Swiss design and precision in our research, development and the manufacturing of our products. We believe in the Made in the USA label and work hard to maintain our production here in our own Country. We pride ourselves on our superior design, quality and overall reliability whilst maintaining our competitiveness in the marketplace. We have managed to build our production here in the USA and are proud of the fact that we are exporting our production back to Europe, Asia, Middle East and Australia.

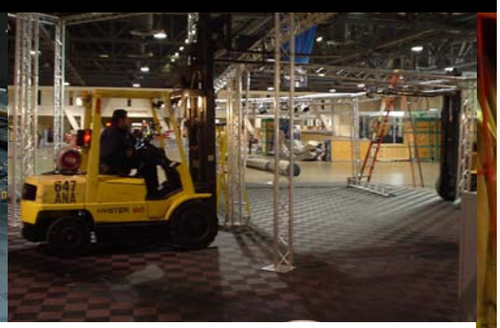
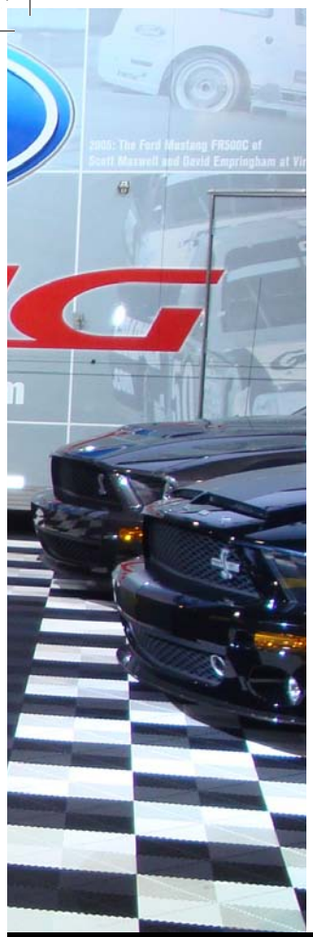
COMMERCIAL FLOORING



Swisstrax commercial flooring is a perfect way to draw more clients into your business and to your product. Liven up your workspace with a floor that is appealing to the eye, easy to clean, and will last for years. Customize your own floor and have Swisstrax put your custom logo on it.

Commercial Flooring Specifications

Our commercial flooring will stand up to the demands of your business. With a temperature tolerance of -22F to 248F, up to 50,000 lbs rollover strength, and the ability to support jacks, jack stands and more, you will find the benefits of Swisstrax commercial flooring to exceed your expectations.



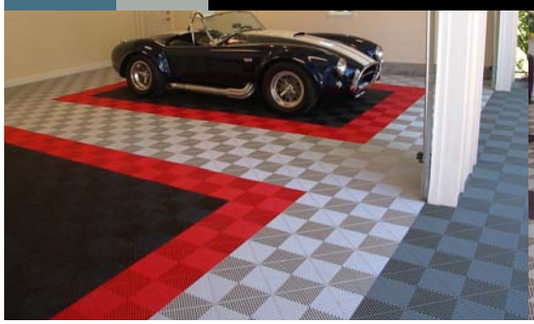
Swisstrax

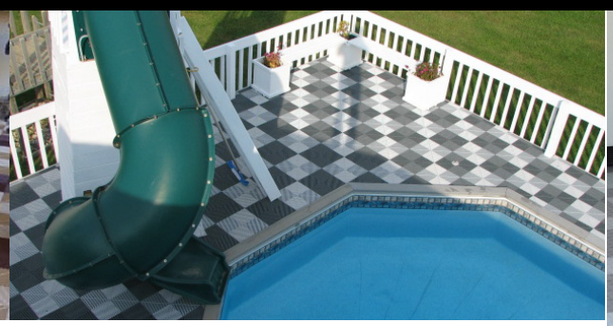
Commercial Flooring

Snap-on

JRL Group, Snap-on's brand licensing agency, brought Swisstrax on to join in a licensee booth for the 2010 Hardware Show in Las Vegas. The booth floor was branded for Snap-on with Swisstrax Logotiles and color-themed to coordinate with the tool company's corporate identity. "The Snap-on garage flooring was definitely the icing on the cake that made for a terrific trade booth presentation. No doubt the Snap-on garage flooring will be a huge success." Andrew Lieb JRL Group, Inc. President

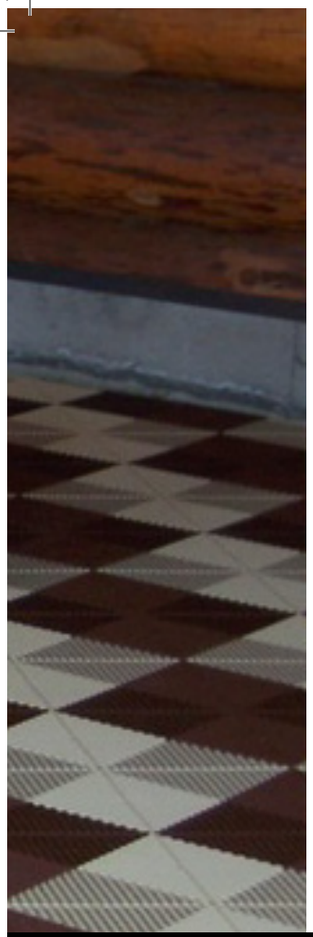
RESIDENTIAL FLOORING





Swisstrax offers the perfect solution to improve the look of your residential floor. Our residential floor tiles are also a great way to cover up any flooring imperfections such as cracks or stains.

Whatever you're needs are, Swisstrax offers a wide variety of styles and up to 14 colors to choose from, ensuring you get the floor you're looking for. We guarantee that our residential floor will meet your satisfaction or your money back, no questions asked. Try Swisstrax residential floor tiles today, you'll never regret it!



Swisstrax

Residential Flooring

Kelstar Group, showroom design and interior display implementation company for the MINI Cooper dealerships, has been using Swisstrax for car display pads in dealerships throughout the U.S.

"The Swisstrax car display pads are terrific for highlighting the new models. We have a standard pad design set up for quick ordering or the dealership can choose a custom design and color combination if they want. The customer service and product is ABSOLUTELY Fantastic!"

- Robert Young, Owner of Kelstar Group

Ecotrax+

We are a company that continues to innovate.

Our goal is to produce the highest quality, highest value interlocking floor tiles in the world. Swisstrax is at the forefront of developing the technology to produce interlocking floor tiles made from recycled tires. We know that buyers of specialty flooring products are unique and demand superior performance, which is why Swisstrax is designed to be one of the longest-lasting, highest value flooring systems in the world.

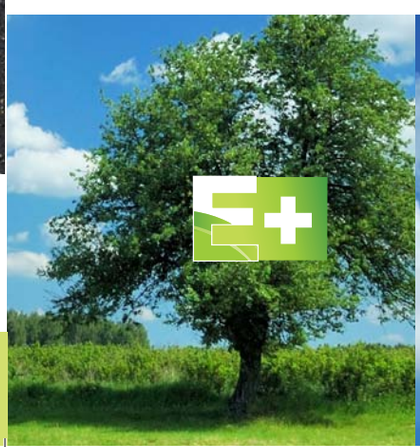
We have spent countless hours in R&D developing the most compelling products available in the flooring market. This is why some of the top specialty companies and enthusiasts - including Avis, Speed and Barrett-Jackson, prefer our product above all others.

Our goal is to remove hundreds of thousands of tires from landfills annually while keeping millions of cubic yards of recyclable materials from reaching those landfills. On an annual basis, we help reduce greenhouse gases by millions of tons of carbon.



Rib

Unparalled Versatility

Our most popular product all-around where a very attractive, low-maintenance, non-slip surface with drainage and flow-through design is desired.

Ivory
Chocolate Brown
Mocha Java
Terra Cotta

Retro style, modern construction.

Diamondtrax is a very popular design and can be used for many applications and is recommended for those who would like a solid floor with an industrial or “retro” diamond-plate look.

aprilia

The flooring has been one of the lowest maintenance Items in our display, an important consideration when you have fourteen events in 22 weeks covering North America! I would not hesitate to buy more, and recommend the flooring for any displaying company seeking anoperational cost reduction, without the logistical hassle and time spent dealing with carpeting.

Robert Pandya, Aprilia USA Product Manager

Diamond

Sturdy and dependable.

Diamondtrax is our most popular solid tile and is suggested for garage floors and workshops where an attractive, non-slip, solid surface is desired.

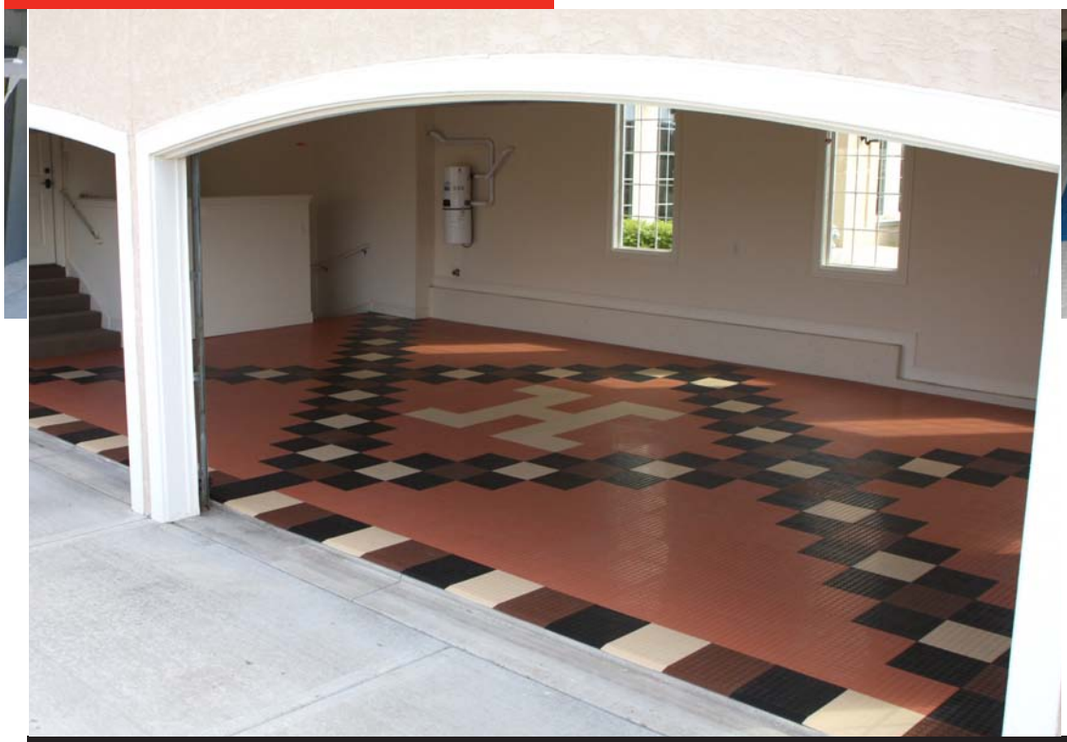
Racing Red
Island Blue
Arctic White
Midnight Blue
Citrus Yellow
Tropical Orange
Mocha Java

Vibrant pattern

Cointrax is a favored style for those who want a solid floor and prefer the more traditional floor covering look of its low-profile coin or “circle” pattern.



Swisstrax supplies flooring to The Protean Corporation for Ford Racing’s car display flooring used at various NASCAR race tracks as well as car enthusiast shows such as SEMA and auctions such as Barrett Jackson. A custom floor design such as the roadway used in the Ford Racing booth is a valued option for companies to display their vehicles.

Floor

Smooth textured finish

Floortrax is our smoothest surface, solid tile and is widely used by dance groups, or for indoor rooms as it is easiest to move around on. It is great for use with casters.

Easy to maneuver flooring

Floortrax is our recommended product for areas where a flat, even surface is needed for movement.

SPEED

SPEED uses Swisstrax display pads for both it’s AMA show and NASCAR Performance show sets. “SPEED’s Swisstrax pads are easy to assemble, provide durable, studio floor protection and look fantastic on camera.”

Nicci Roebuck, Production Manager, SPEED

Spor

Get in the game.

Sportrax is perfect for sport surfaces. It provides an excellent play or work surface with an open pattern allowing dust or moisture to go beneath the surface and out of the way.

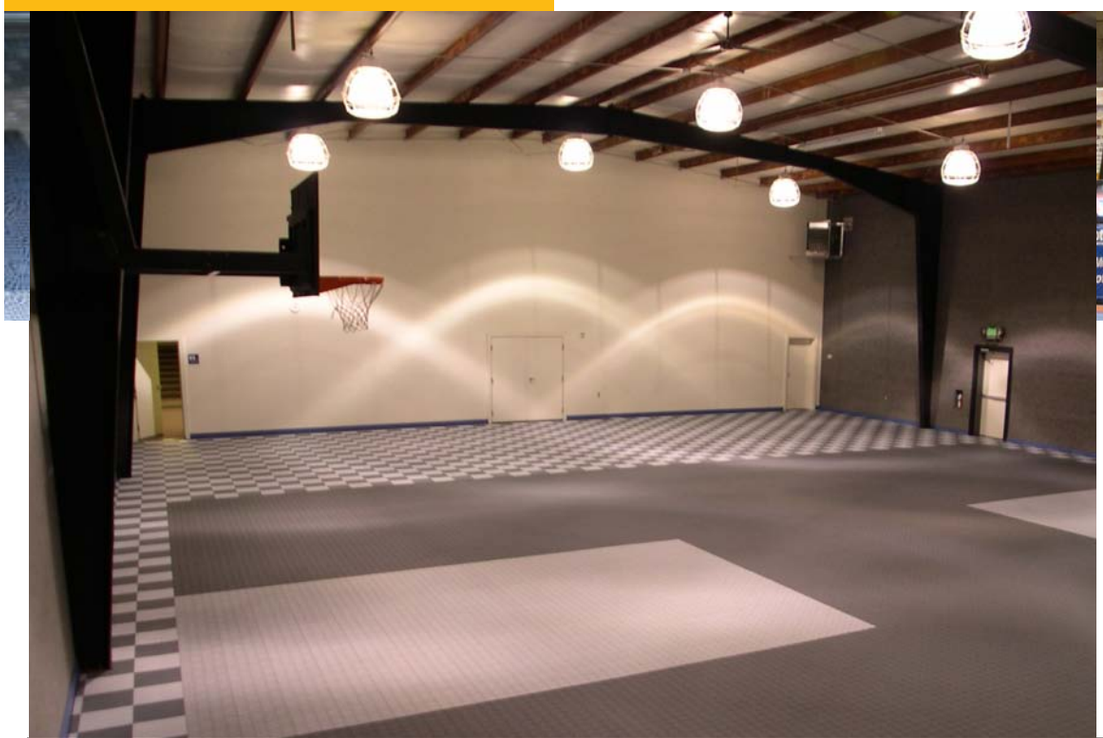
Island Blue
Mocha Java

Superb Multi-use Functionality

Sportrax is designed for sport applications such as basketball and tennis courts and inline hockey, but these tiles may also be used in garages for a full installation or as drainage tiles when incorporated with our other 13” solid tiles.



Barrett-Jackson
THE WORLD'S GREATEST COLLECTOR CAR AUCTIONS™

Barrett Jackson has taken on Swisstrax as their garage flooring provider using the tiles for flooring on the Staging Lanes, Bidder Bar, Merchandise Booth, Garage Experience, Post Interview and Dance Floor areas.“Swisstrax continues to be one of the premier partners of Barrett-Jackson. Their products are easy to use, professional, and of the highest quality. We’ve relied on the Swisstrax team to help us implement our creative vision and maintain our brand standards with our customers. They offer products that our customers love…we can’t ask for more than that!” Jade Waterman, Director of Licensing and Branding

ANTI-FATIGUE MATS

Specifications

Material: 75% Thermoplastic Elastomer

& 25% Polypropylene copolymer

Chemical Resistance: (UV stabilized)

Alkalis: Excellent

Acids/Solvents: Good

Tile weight: up to 32 oz

Slide: Non-slip

Temperature tolerances: -38F to 253F

Compressive strength: 1200 psi

Easy on your feet

Swisstrax Anti-Fatigue mats are ideal for work areas, gyms & other applications where a softer tile is desired or where someone may be standing for long periods of time. The open profile of the Anti-Fatigue mats facilitates easy cleaning.

All Anti-Fatigue mats are the same size and can be integrated with the regular tiles, but they do not withstand as much rollover or compressive weight so they are not recommended to be placed under heavy objects or driven on. This soft, more flexible tile is great for areas where an Anti-Fatigue floor is needed.
